Together Against Sizewell C

Pro and anti nuclear people together rigorously challenging the case for Sizewell C

Petition Against the Building of SIZEWELL C on the Suffolk Coast

Please Return To: TASC Wood Farm, Westward Ho, Leiston, Suffolk IP16 4HT by end of March 2019

	We, the undersigned, strongly oppose the plan by EDFE to construct 2 new Nuclear reactors at Sizewell in Suffolk. **The destruction of AONB (Area of Outstanding Natural Beauty), SSSI sites (Site of Special Scientific Interest) and the proximity to Minsmere bird reserve, all on our crumbling Suffolk coastline, is totally unacceptable.** **A government-backed programme of energy saving and clean renewable energy would combat climate change and avoid the risks of a catastrophic accident, dangers to health and the storage of highly radioactive waste at Sizewell for many years to come. SAY NO TO SIZEWELL C.**
To	**Suffolk County Council, East Suffolk…Suffolk & Waveney District Councils**
